

Software Developer – Delphi – C# – JQUERY – SQL Server – Oracle - Android / iOS Mobile

3LOG is a technology company based in Richmond, BC and looking for experienced software developers to help drive our design and mobile based solutions. You will work across all areas of product development to translate requirements and user task flows into creative, highly usable and aesthetically pleasing interfaces. This includes capturing requirements through collaboration with external clients / users, business analysts, leading and participating in testing sessions.

Key Areas of Responsibilities:

- Design a modern, aesthetically pleasing User Interface that compliments workflow and that is easy to use
- Evaluate new technologies and software components / products to determine feasibility and desirability of incorporating their capabilities into the Company's products.
- Develop and Provide guidance and mentoring on Delphi, C#, SQL Server and Oracle Databases

Desired Skills & Experience:

- 3+ years of experience building world class, visually stunning applications for Windows
- Extensive experience as a key User Interface designer for desktop software and e-commerce/web applications
- Understanding of product development best practices, lean, agile teams, quality process, and good judgment for trade-off decisions
- Excellent written, oral and presentation skills suitable for communication to all levels.
- Knowledge in PL/SQL, Transact-SQL writing stored procedures, table schemas, views and more
- Delphi / C# language skills with multiple years building highly visual applications and components
- Knowledge and experience with any of the following platforms: HTML5, FireMonkey, MVC
- Competency in ER diagram modeling using tools such as ERwin, Visio or others

How to Apply:

This is a Permanent Full time position with competitive salary, company paid benefits, and the opportunity to make a difference. Only candidates selected for an interview will be contacted. Please apply for this opportunity by sending your resume with a cover letter to hr@3log.com
